

Are you currently eligible to petition for removal of your name from the Sex Offender Registry under the Tiered Registry Law? We can verify your eligibility and decide whether we are able to take your case. If so, we will draft and file your petition for free . . .

# PRO BONO

Once filed, the prosecutor has the option to contest your petition by requesting a "community safety hearing," i.e., where the DA will argue that community safety would be enhanced by keeping your name on the registry.

If the prosecutor requests a hearing, then you will have the option to hire us to represent you at the hearing.

But, if no community safety hearing happens, and if the court grants the petition we have filed for you, then you will have gotten off the sex offender registry without paying us any legal fees, i.e., attorney fees.
